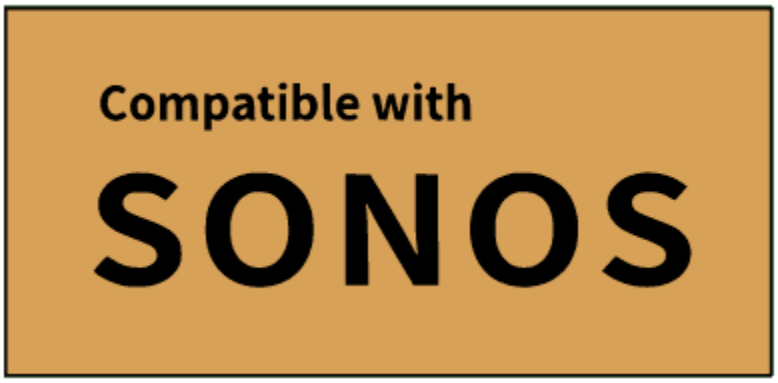
Does PIXIE work with Spotify?

Home Owner · https://pixiepartners.com.au/support-docs/does-pixie-work-with-spotify/

Yes, using your Sonos system and PIXIE PLUS with the PIXIE Gen3 Gateway, its possible to integrate your Spotify playlists into your PIXIE smart home scenes.

As PIXIE is Compatible with Sonos - and Sonos can be linked to Spotify Playlists, this provides PIXE PLUS users the ability to feature their favourite Spotify playlists as part of their smart home automation.



You can read more about how Sonos works with PIXIE here: https://pixiepartners.com.au/support-docs/does-pixie-work-with-sonos/

NOTE: The PIXIE LED Strip Kits Gen1 with the music SYNC function CANNOT be linked to Spotify music. These LED strip kits ONLY WORK WITH music that is located on the mobile device controlling the PIXIE LED Strip Kits.

UPDATED: DECEMBER 2023:
PIXIE PLUS users with Gen3 Strip Kits can sync their strip kits to Spotify. Please check for a firmware update to both your strip kits and PIXIE Gateway
