Can the LT8915DIMBT and LT8915RGBBT be used with any LED strip from any manufacturer

Dimmers · https://pixiepartners.com.au/support-docs/can-the-lt8915dimbt-and-lt8915rgbbt-be-used-with-any-led-strip-from-any-manufacturer/

Yes.

The PIXIE Lt8915DIMBT (single colour 12v / 24v LED strip dimmer controller) and the LT8915RGBBT (RGB 12v / 24v LED strip dimmer controller) can be used to control most manufacturers 12v rated and 24v rated LED strips.

Simply match a NON DIM driver to the watts per metre of the LED strip run to the PIXIE LED controller and then connect the LED Strip to the PIXIE controller.

These can then be controlled in a number of ways.

1. 1) Directly from the PIXIE Apps on your mobile device
2. 2) PIXIE Touch Panel
3. 3) By connecting a standard BELL PRESS mechanism to the BP input on the PIXIE controller
4. 4) By pairing one or more PIXIE Multifunction controllers or PIXIE Rotary Multifunction Controllers to the LED controllers
