Can you personalise the PIXIE APP?

The SAL PIXIE APP does not provide the ability to customise the appearance, design or colours.

The PIXIE PLUS app provides the ability to make Scenes and Groups as favorites so these can be allocated to your PIXIE PLUS App home screen for fast access and can be modified in the future.

Additionally PIXIE PLUS App provides Widgets - which places a quick access widget on your iOS and Android devices so there is no need to open the PIXIE APP to control devices, grouups or scenes you have chosen to assign to your widget.

PIXIE PLUS also allows users to re-order their ROOMS in the rooms section as well as their SCENES in the SCENES section.

The PIXIE App has been optimised to provide an effective and simple mobile App for control of your PIXIE Home.
