# How much does PIXIE training cost?

PIXIE Training · https://pixiepartners.com.au/support-docs/how-much-does-pixie-training-cost/

Both the face to face training and the PIXIE online training course are provided free of charge.

In fact upon completion graduates are provided a free PIXIE Starter kit.

We know that the best way for electricians to have the confidence to recommend and product is to use it everyday, install it in their own homes and live with it.

If they are willing to bet their reputation on the PIXIE products we are willing to provide a starter kit for free!

The online training course can be found here:

> PIXIE Certified Installers Home
