In PIXIE app, there is a group control function. Do all the grouped PIXIE products have to be installed on the same eletrical circuit?

Installation · https://pixiepartners.com.au/support-docs/in-pixie-app-there-is-a-group-control-function-do-all-the-grouped-pixie-products-have-to-be-installed-on-the-same-eletrical-circuit/

No, all the grouped PIXIE products are communicating wirelessly and so installation onto the same circuit is not necessary for controlling these items together as a group.
