What is the SWL10L and SBP10L non smart mechs for?

Home Owner · https://pixiepartners.com.au/support-docs/what-is-the-swl10l-and-sbp10l-non-smart-mechs-for/

The SWL10L and SBP10L non smart mechs are meant for use in the PIXIE Ambience wall plates, when NON smart switching operation is needed on the same plate as PIXIE smart mechanisms being used.

The SWL10L is a 10AX **mechanical push button ON/OFF switch**, with different wiring options to enable/disable LED indicator made for PIXIE Ambience grid plates and others.

The SBP10L is a mechanical **push button momentary switch**, with different wiring options to enable/disable LED indicator made for the PIXIE Ambience grid plates and others
