#LT8915DIMBT

PIXIE Smart LED Strip Controller

PIXIE LED strip controller enables dimming of most manufacturer's LED strip via momentary switch, smart phone App or PIXIE Multifunction controllers. Comes with 24hour/7 Day scheduling, Groups, Scenes and mobile app control and configuration.

Features

- Suitable for controlling intensity (dimming) of LED strips in a single colour in 12v and 24v.
- Memory function activated by dip switch to toggle and memorise the status if a power outage occurs
- Seperate, optional connection of 3rd-party bell-press/ momentary inputs for simple wall control operation and integration possibilities.
- Compatible with PIXIE Multifunction control, Multifunction remote control, Timer control
- Connect a power repeater to allow extension to the power capacity (extra power supply required) for very long LED runs.

Electrical

Input	12 - 24V
Min/ Max loads*	12V: 0/214W, 24V: 0/423W
Operating ambient min/max (°C)	-10 to 45°
Typical wireless range	15 metres typical indoors **
IP Rating	IP20

** Depending on building materials and construction.
