#LT8915RGBBT
PIXIE Smart RGB LED Strip Controller

PIXIE LED strip controller enables dimming of most manufacturer's RGB LED strip via momentary switch, smart phone App or PIXIE Multifunction controllers. Comes with 24hour/7 Day scheduling, Groups, Scenes and mobile app control and configuration.

Features

- Suitable for controlling intensity (dimming) and colour of RGB LED strips in 12v and 24v.
- Memory function activated by dip switch to toggle and memorise the status if a power outage occurs
- 2 x seperate, optional connection of 3rd-party bell-press/ momentary inputs for simple wall control operation and integration possibilities.
- Compatible with PIXIE Multifunction control, Multifunction remote control, Timer control
- Connect a power repeater to allow extension to the power capacity (extra power supply required) for very long LED runs.

Electrical

Input	12 - 24V
Min/ Max loads*	12V: 0/180W, 24V: 0/360W
Operating ambient min/max (°C)	-10 to 45°
