

PIXIE SFI™ Dimmer

PIXIE MASTER

Flicker Free Dimming

SFI Dimmer
#SDD400SFI

Eliminate LED downlight flickering by combining the PIXIE SFI dimmer with a range of SFI enabled downlights. This combination provides immunity to off-peak ripple tone injections commonly found in NSW and Queensland and delivers an exceptional dimming experience, simply.

- Familiar push button dimmer control with no flickering
- Smooth flicker free dimming to 1%
- Superb visual comfort with soft start / stop as standard
- Compact form factor allows for up to 6 Gang dimming wall plates
- Fits most branded switch plates and PIXIE Ambience plates
- Smart functions and configuration via PIXIE or PIXIE Plus app

[More Information](#)

How Does SFI Work?

- ▶ **SIMPLE, EFFECTIVE, FLICKER FREE**
The SDD400SFI dimmer is simple to install just like a standard 2 wire dimmer. Likewise installation of the SFI enabled downlights with their flex and plug provided, is a plug-and-play installation when plug bases are already installed in the home.
- ▶ **NOT JUST SMARTER**
All the smart home intelligence of PIXIE is included in each SFI dimmer and using combinations of SFI and non-SFI dimmers is possible.

If homeowners don't want any PIXIE smarts, the flickering is still eliminated and the SFI dimmer is used as a simple push-button wall dimmer.

Say Farwell to Flickering Forever

Eliminating LED downlight flickering comes with a choice of designs and colours to meet the needs of every home. Choose from flicker immune, recessed, low glare downlights in different sizes or a more traditional LED downlight form factor with flat disc styling and tri-colour light selection.
