## Houses of Worship & Healthcare

Automated environments for services, consultations, and care

# One System. Every Circuit in Your Facility.

**SMART  
SPACES**

**PXE**

*Control everything that  
opens, closes, dims,  
switches and spins.*

## Lighting Control

Dimmers, switches, scenes, schedules —  
all protocols

## Climate & HVAC

Daikin & Mitsubishi AC, zone control,  
ceiling fans

## Ceiling Fans

Hunter Pacific, Ventair Skyfan, Big Ass  
Fans

## Motorised Blinds & Shading

SOMFY, Velux — automated and  
scheduled

## Garage Doors & Access Control

B&D, Merlin — app and sensor-triggered

## Security & Sensors

PIR sensors, push notifications, remote  
monitoring

# Set It Once. It Works Every Day.

*Your daily operation runs automatically — without manual intervention, every day.*

## HOSPITALITY

5:00 PM

### Dinner service begins

Lights dim to dinner ambience. Music fades in. Air con adjusts to comfort setpoint. Every evening — without a single manual action from your staff.

## GYM & FITNESS

6:00 AM

### First class of the day

Lights to full intensity. Fan speed increases. Schedule repeats automatically for every session — class times, rest periods, close of business.

## COMMERCIAL OFFICE

End of day

### Last person leaves

Lights off. Air con to setback. Security armed. All automatic. All verifiable remotely from the PIXIE PLUS app.

# Your Electrician Installs It. Your Team Operates It.

## *Simply Swap for Smart*

1

### **No Special Wiring**

Standard Australian wiring practices throughout. Your electrical contractor changes nothing in how they wire.

No proprietary cabling or dedicated infrastructure required.

2

### **Wireless Bluetooth Mesh**

All PIXIE devices communicate wirelessly.

No data cabling between devices — reducing installation labour and materials cost on every commercial job.

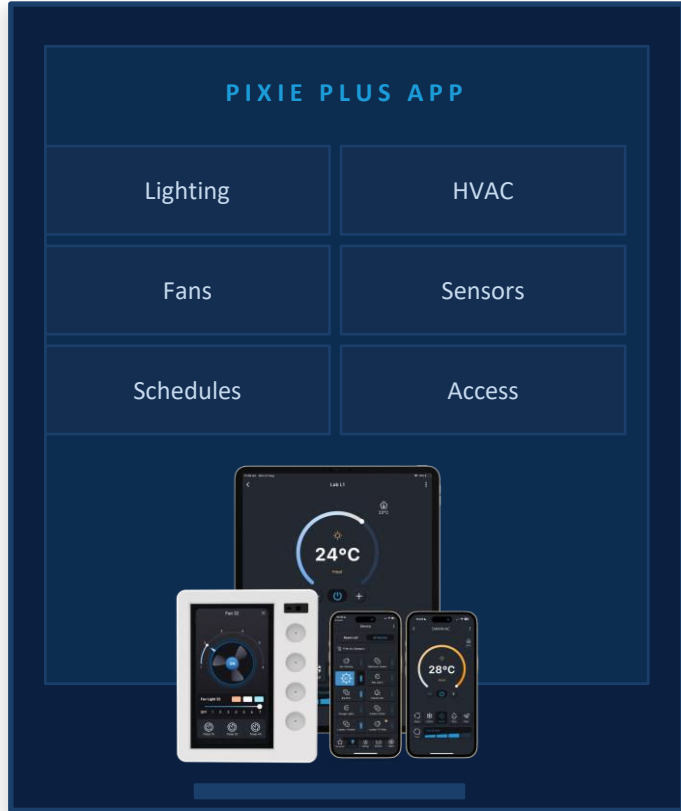

3

### **No Specialist Programmer**

Install. Scan. Control. PIXIE self-configures via Bluetooth mesh.

No specialist programming required to commission or operate. Your team is in control from day one.

# In Control — Wherever You Are

## Monitor & Control from Anywhere

Full facility access via the PIXIE PLUS app — lighting, climate, fans, gates, and more. iOS and Android.

## Scheduling — Set It Once

Define daily lighting and climate schedules once. PIXIE runs them automatically, every day, without staff intervention.

## Voice Control

Google Home and Amazon Alexa integration included. Control your facility with simple voice commands.

## Multi-Site Management

Manage multiple locations from a single PIXIE PLUS account. Ideal for groups, chains, and franchise operations.

# Fast to Commission. Easy to Hand Over.

1

## Install

Standard wiring. Your PIXIE Certified Electrician does what they already know. No proprietary cabling, no specialist infrastructure.

2

## Scan

Bluetooth mesh self-configures. Devices paired, scenes programmed, schedules set — fast. No programming language or specialist on site.

3

## Control

Your team operates via the PIXIE PLUS app, voice assistants, or wall controllers from day one. No specialist required. Ever.

**PIXIE Tech Support — 1800 256 843**

Available on-site or remote whenever your installer needs help — and your team can call directly too.
