

Welcome to the Smartest Version of Your Home.

Control everything that opens, closes, dims, switches and spins.

Lighting · Air Con · Fans · Blinds · Garage · Security · Power

One App. One System. Everything.

Lighting

Dim, switch, set scenes and schedules — every room, every fitting.

Blinds & Curtains

Motorised blinds that open on a schedule or close with a voice command.

Security & Sensors & Intercom

Motion detection, push notifications, and smoke sensor alerts; Doorbell, intercom and access.

Fans & Air Con

Ceiling fans and ducted or split AC, all from the same app.

Garage Doors & Gates

Open from your car, your phone, or automatically when you arrive home.

Power Points

Smart GPOs for appliance scheduling, energy awareness, and safety.

Start with one room. Expand when you're ready. PIXIE grows with you.

Your Smart Home. Your Ecosystem.

Hey Google

Voice control

Amazon Alexa

Voice control

Siri Shortcuts

Apple voice control

Samsung SmartThings

Home automation hub

IFTTT

Custom automations

Sonos

Sync with your music

Spotify

Beat Sync lighting

Daikin / Mitsubishi

Air conditioning

Apple Watch

Wrist control

Link your PIXIE PLUS account to your existing services in minutes. No tech expertise required.

Air Con. Fans. Lighting. Working Together.

Imagine your Daikin ducted air con, your DC ceiling fans, and your smart lighting all operating as one system — automatically adjusting for comfort, time of day, and who's home.

Daikin

Ducted AC + zone control — no extra cabling between zones

Mitsubishi Electric & Mitsubishi Heavy Industries

Split system and ducted — deep app integration

Hunter Pacific

DC fan speed and light — full scheduling control

Ventair Skyfan

FanLink module — speed, direction, and timer from one app

One system. One app. Total comfort.

Smart Home Moments

Welcome Home

Garage opens, pathway lights on, your favourite scene activated — triggered by voice or location.

Morning

Lights gradually brighten, fans adjust, blinds open on a schedule — without touching a switch.

Away

Check your home from anywhere. Receive notifications. Control from your phone.

Entertainment

Set the perfect scene with one tap — lighting, fans, blinds, all at once.

Security

Motion sensors trigger lights outdoors. Smoke detector push notifications. Gate status alerts.

Sleep

Lights dim, fans adjust, blinds close, appliances off — on a schedule you set once.

Light That Works With Your Body, Not Against It.

HUMAN CENTRIC LIGHTING

PIXIE's Human Centric Lighting automatically adjusts colour temperature and intensity through the day — supporting your alertness in the morning, your focus in the afternoon, and your wind-down at night.

WARM WHITE
3000K

DAYLIGHT
6500K

DIMMABLE & TUNABLE

Backed by circadian science.

Available in PIXIE PLUS RS COOLUM downlights with PIXIE RS dimmer.

Day by day. Automatically.

Morning — energising, cool white light to start the day

Afternoon — neutral, focused light for productivity

Evening — warm, dimmed light to help you wind down

RippleShield

If your lights flicker during off-peak hot water cycles, RippleShield eliminates the problem at the dimmer — no electrician callout, no workaround needed. Common in NSW and South East Queensland.

The Smart Choice for Smart Homeowners.

	Top-End Systems	PIXIE
Capability	Full-featured professional automation	80–90% of the same capability
Cost	Significantly more expensive per device	A fraction of the cost — same result
Installation	Specialist programmer required	Your electrician installs everything
Ongoing	Regular programming fees and retainers	No specialist ever required again
Day One Control	Custom interface — takes time to set up	App, voice, or wall switch — day one

Professional-grade smart home. Built for Australian homes. Installed by your electrician.

No IT Degree Required.

Three steps from bare walls to a fully working smart home.

01

Design

Upload your floor plans at pixieplus.com.au.

Get a free, professional PIXIE smart home design back in 10–14 days — marked up with exact product locations and a complete bill of materials.

02

Install

Your PIXIE Certified Electrician installs everything using standard wiring. Install. Scan. Control.

No specialist programmer.

No proprietary cabling.

03

Enjoy

Control everything from the PIXIE PLUS app, your voice, or your wall switches — from day one.

If your electrician is new to PIXIE, we train them at our expense.

Free. No Obligation. No Strings.

- ✓ Your floor plans marked up with exact product locations
- ✓ A complete bill of materials — ready for your electrician to quote
- ✓ Up to 3 revisions as your project evolves
- ✓ A free 15-minute Zoom call with the PIXIE design team
